

University of Utah Hospital and Clinics
Urology
DELINATION OF PRIVILEGES
PRIVILEGES REQUEST FORM

PRIVILEGES

I desire clinical privileges at the University of Utah Hospital for the practice of urology as checked below:

I. GENERAL PRIVILEGES

General clinical privileges customary to the practice of urology:

- Outpatient
 Inpatient

II. SPECIFIC PRIVILEGES

KIDNEY

Incision

- Drainage of kidney abscess
 Drainage of perirenal abscess
 Removal of calculus or foreign body in perirenal tissues
 Nephrostomy with drainage
 Nephrolithotomy
 Division or transaction of aberrant renal vessel
 Pyelolithotomy
 Pyeloplasty

Excision

- Renal Biopsy
 Nephrectomy
 Heminephrectomy
 Renal capsulectomy (capsulation of kidney)
 Excision of cyst of kidney
 Renal Artery Repair by –pass graft – vein, artery or synthetic
 Diagnostic Procedure Perirenal insufflation

Subsection Repair

- Renal arteriography
 Pyeloplasty (plastic operation of renal pelvis)
 Nephropexy
 Suture of kidney wound
 Suspension of kidney
 Other _____

URETER

Incision

- Ureterotomy
 Meatotomy of the ureter
 Ureterolithotomy

Excision

- Ureterectomy
 Ureterocele Fulguration
 Ureterocele suprapubic excision
 Ureteroplasty (plastic repair on ureter)
 Ureteropyelostomy (anastomosis of the reter of renal pelvis)
 Ureter-enterostomy

- Uretercystostomy (anastomosis of the urter to bladder, unilateral)
- Ureter-enterostomy (anastomosis of ureter to intestine including creation of ileal conduit)
- Ureterostomy (transplantation of ureter to skin)
- Suture
- Closure of ureterovaginal fistula with ureterovesical anasomosis
- Other _____

BLADDER

Incision

- Puncture aspiration of bladder by trocar
- Aspiration with insertion of suprapubic catheter
- Cystotomy with exploration
- Cystotomy with insertion radioactive substance
- Cystolithotomy
- Drainage of perivesical space

Excision

- Cystectomy
- Suprapubic resection of bladder neck
- Transurethral
- Eleco resection of bladder neck
- Excision of bladder diverticulum
- Excision of bladder tumor with segmental resection of bladder
- Transurethral resection of bladder tumors

Endoscopy

- Cystoscopy
- Cystoscopy with ureteral catheterization
- Cystoscopy with stone removal
- Cystoscopy with manipulation of ureteral calculus
- Cystoscopy with fulguration of bladder tumor
- Cystoscopy with insertion of radioactive substance or with biopsy

Reconstruction

- Litholapaxy

Suture

- Cystorrhaphy, suture of bladder wall
- Closure of vesical-vaginal fistula
- Closure of extrophy of bladder
- Other _____

URETHERA

Incision

- Urethrotomy, internal
- Urethrotomy, external
- Meatotomy, cutting of meatus

Excision

- Excision of urethral caruncle of fulguration
- Excision of bulbourethral, planned
- Excision of Carcinoma of urethra
- Excision of diverticulum urethra
- Excision of urethral ployps

Endoscopy

- Urethroscopy
- Urethroscopy with removal calculus or foreign body

Repair

- Urethroplasty (plastic operation on urethra)

Suture

___ Closure of urethral wound

Manipulation

___ Dialation of urethral structure by passage of sound

___ Other _____

PENIS

Excision

___ Biopsy of penis

___ Amputation of penis

___ Amputation of penis radical with bilateral, no dissection

___ Circumcision

Repair

___ Plastic repair of penis for hypospadias

___ Injection of Peyronies Plague

___ Insert penile prosthesis

___ Other _____

TESTES

Excision

___ Biopsy of testes

___ Orchiectomy

___ Orchiectomy, radical or bilateral with retroperitoneal lymph node dissection

Repair

___ Reduction of Torsion the testes by surgical means

___ Orchidopexy

___ Other _____

EPIDIDYMIS

Incision

___ Drainage of abscess of epididymis

Excision

___ Biopsy of epididymis

___ Excision of spermatocele

___ Epididymectomy

Repair

___ Epididymovasostomy, anastomosis of spididymis to vas

___ Other _____

TUNICA VAGINALIS

Incision

___ Puncture aspiration of hydrocele

___ Excision of hydrocele

___ Excision of hydrocele with hernia repair

___ Other _____

SCROTUM

Incision

___ Drainage of scrotal abscess

___ Local excision of lesion of scrotum

___ Other _____

VAS DEFERENS

- Vasotomy division of transaction of vas
- Vasectomy
- Vaso-vasostomy
- Ligation of vas
- Other _____

SPERMATIC CORD

- Excision of hydrocele of spermatic cord
- Excision of varicocele
- Other _____

SEMIANL VESICLES

- Vesiculotomy
- Vesiculectomy
- Other _____

SPECIAL PROCEDURES

- Davinci Robot logic procedures
(must provide documentation of training and completion of proctoring for the davinci robot system)

PROSTATE

- Prostatotomy, external drainage of prostatic abscess
- Biopsy of prostate
- Prostatectomy, perineal
- Prostatectomy, perineal
- Prostatectomy, suprapubic
- Prostatectomy, retropubic
- Transurethral resection of prostate
- Bilateral iliac lymph adenectomy to stage prostatic carcinoma
